Legal services

Legal searches with local opinion

Our carefully selected attorney network shares our passion for searching. We collaborate with them because of their practical trademark law experience within their local jurisdiction. Our client care team will ensure that the correct instructions are sent to the local attorney, so you receive advice that is pertinent to your needs in words that you understand.

Overall Opinion searches for regional business advice

If you are planning to file a trademark in multiple countries in a homogeneous region, for example several countries from the European Union, you may need general advice on the availability or usability of your mark. We work closely with an experienced attorney with regional knowledge, who reports all potentially conflicting marks found in all the registers searched and provides consistent advice on the availability or usability of your mark.

Avantiq's added value

Avantiq's legal review group has established rigorous guidelines which guarantee you receive a report tailored to your requirements which is also easy to interpret.

We review all reports carefully, checking for consistency across jurisdictions and query any anomalies.

Please contact orders@avantiq.com for further information.

Why should I use Avantiq's Legal Services?

Your comments

I don't have an agent in that country!

How can I manage searches in 20 countries at the same time?

Help - the client needs the report tomorrow!

I need an agent who understands my industry.

I want as much information as possible summarized in only a few pages.
